### Hospital Excess

A hospital excess is the amount you pay towards the cost of a hospital stay before any benefits are payable by nib. **A higher excess means your premiums with nib will be lower.**

You only pay an excess if you or someone (other than a dependant child under 21 years of age) on your policy goes to hospital. The excess applies per person per calendar year and is payable directly to the hospital prior to your admission. The excess level for couples and families is capped at twice the chosen level of excess in any calendar year.

**Please note:** If you've recently switched hospital covers your previous level of excess may apply for up to 12 months for pre-existing conditions. Refer to the nib OVHC Fund Rules for more information.

### Excess options on this cover:
