Subject nib embraces the festive season

The switch will be officially “flicked on” for one of the biggest Christmas light displays in the Newcastle CBD this evening at nib’s head office building in Honeysuckle.

nib is embracing the festive season with an eye-catching Christmas lights display featuring approximately 55,000 lights that will light up from 8pm each night throughout the holiday season (until 8 January 2012).

The display is one of the biggest in the Newcastle CBD and features:

- Five Christmas trees, ranging in height from 5 metres to 9.5 metres tall;
- A six metre Santa image;
- Five 11 metre white and green snowflake motifs; and
- A five metre Merry Christmas sign.

All of the lights are low voltage energy efficient LED’s, maintaining nib’s commitment to being an environmentally-friendly company.

The Christmas light display is part of nib’s ongoing commitment to supporting the local community with the display to generate fantastic community engagement in the Hunter region.
