

# Helping over one million people access and afford healthcare

## An outline of nib's related businesses and partnerships for healthcare providers

nib is one of Australia's fastest growing health insurers providing health and medical insurance to over one million Australian and New Zealand residents. It's our mission to help people afford healthcare when and where needed with world class products and service.

You may be familiar with nib's brand. What you might not realise is nib has related businesses, partnerships and other financial arrangements to support the healthcare needs of a diverse range of people living, working and studying in Australia and New Zealand.

# APIA Health Insurance

Apia health insurance has been designed for the over 50's market in Australia. It covers services over 50's are likely to need, and not the things they won't (like pregnancy).

nib health funds is the underwriter for Apia's health insurance products.

All of nib's usual fund rules, benefits and claiming requirements apply to Apia customers. Please treat these customers in the same way you would an nib customer.
